Project Name	Skill and Job Recommender
Maximum Marks	2 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Template

Conducting a brainstorm

Executing a brainstorm isn't unique; holding a productive brainstorm is. Great brainstorms are ones that set the stage for fresh and generative thinking through simple guidelines and an open and collaborative environment. Use this when you're just kicking-off a new project and want to hit the ground running with big ideas that will move your team forward.

- 15 minutes to prepare
- 30-60 minutes to collaborate
- 3-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

15 minutes

A

Choose your best "How Might We" Questions

Create 5 HMW statements before the activity to propose them to the team.

B

Set the stage for creativity and inclusivity

Go over the brainstorming rules and keep them in front of your team while brainstorming to encourage collaboration, optimism, and creativity.

1. Encourage wild ideas (If none of the ideas sound a bit ridiculous, then you are filtering yourself too much.)
2. Defer judgement (This can be as direct as harsh words or as subtle as a condescending tone or talking over one another.)
3. Build on the ideas of others ("I want to build on that idea" or the use of "yes, and.")
4. Stay focused on the topic at hand
5. Have one conversation at a time
6. Be visual (Draw and/or upload to show ideas, whenever possible.)
7. Go for quantity

Define your problem Statement

I am a Fresher am trying to find a job but it is difficult to search by going to each company because it consumes more amount and time to search the company and provide the resumes in person which makes me feel frustrated when I am not getting proper informations about the skills required and the job that is offered

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

To recommend a job, we calculate similarity of skill keywords between sample resume and job description. Once job offers and profiles are filtered, the second step is text preprocessing. The third step, feature representation, aims to represent these documents (job offers and profiles) as vector space models

Group Ideas

Thus, the contributions of this work are threefold, we made publicly available a new dataset formed by a set of job seekers' profiles and a set of job vacancies collected from different job searching sites; i put forward the proposal of a framework for job recommendation based on professional skills of job seekers; and carried out an evaluation to quantify empirically the recommendation abilities of the state-of-the-art methods, considering different configurations.

Tip

You can use the Rating section tool above to focus on the strongest ideas.

Step-3: Idea Prioritization

4

Prioritize

- 1.Return percent match by job type.
- 2.Return a chart of where your resume fits in with the other job positions based on topic matches.
